

And that's just the way it is.

#### BOEING BEING BULLIED BY UNIONS AND THE NATIONAL LABOR RELATIONS BOARD

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, the National Labor Relations Board has filed a complaint against the Boeing Corporation to stop thousands of jobs at the currently built 1.2 million square foot production facility in South Carolina. This is the second line for 787 jetliners which are so popular due to 20 percent less fuel use than any other airplane of its size.

Manufacturing employees locate in South Carolina due to the welcoming climate provided by the right-to-work laws, with trained workers educated at world-class technical colleges. Boeing has a right to contract to work where it's in the best interest of its shareholders and workers.

I appreciate Governor Nikki Haley leading the defense of our workers against the Obama administration's attack. I am grateful Attorney General Alan Wilson is recruiting fellow attorneys general across America to protect jobs. South Carolina is fortunate to have America's youngest Governor and America's youngest attorney general energetically standing up for freedom of American workers.

Welcome to Washington Adjutant General Bob Livingston, former 218th commander in Afghanistan, with Legislative Liaison Matt Nichols.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

#### MASSACHUSETTS FUTURE

(Mr. PITTS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PITTS. Mr. Speaker, we only need to look at Massachusetts to see a preview of what is in store if we fail to repeal ObamaCare.

Just a few years ago, it was predicted that the Massachusetts health reform would reduce emergency room care by getting patients in to see primary care physicians. But a new survey shows that only half of primary care physicians are able to accept new patients right now. It now takes 48 days to see an internist for a routine checkup. Premiums in Massachusetts remain among the highest in the Nation. Low reimbursements in the Commonwealth Care health plan mean that only about half of doctors accept the State-managed insurance.

Far from solving Massachusetts' health care crisis, the health reform law has created problems of its own. The Massachusetts Medical Society finds that the environment for physicians continues to deteriorate, despite

billions in government spending—just a sample of what awaits the Nation under ObamaCare.

#### TAXES, PENALTIES, AND FEES IN PPACA

(Mr. BURGESS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURGESS. Mr. Speaker, the Patient Protection Affordable Care Act, billed as a health care bill, is actually a tax bill. It is riddled with fees and penalties that will drive up the cost of health care by imposing taxes on families and businesses.

Included in the law was a tax increase on nonmedical expenditures from a health savings account. There has always been a 10 percent penalty, but now it jumps to 20 percent.

In addition, beginning next year, employers who have 50 full-time employees for the previous calendar year must offer health coverage that meets the minimum essential benefit coverage requirement of the Secretary of Health and Human Services, and that coverage requirement is likely to cost \$52 billion over the next 10 years, hardly the way to foster job creation in an economy that desperately needs jobs.

The individual mandate starts out as a tax; then it is a penalty. Oh, now it's back to a tax again. The administration creatively changed its position when it realized that the mandate was indeed a tax, even though it violated the President's own pledge during the campaign not to raise taxes on middle class Americans to pass his signature health care legislation.

The taxes in the health care law will affect everyone inevitably and cannot help but drive up the cost of health care in this country.

#### STOP THE PAIN AT THE GAS PUMP

(Mr. HARRIS asked and was given permission to address the House for 1 minute.)

Mr. HARRIS. Mr. Speaker, with Americans feeling pain at the gas pump, I am so glad that the House remains focused on lowering the cost of energy and creating an environment for positive job growth.

American energy production has been handcuffed by a moratorium that the President has placed on new oil, natural gas, and coal production right here in the United States. Mr. Speaker, there is simply no reason that a country with the largest fossil fuel reserves in the world should be suffering through another energy crisis, a crisis that has already cost America thousands of jobs, forced manufacturers to relocate overseas, and made a gallon of gas unaffordable.

The folks that get hurt the most are our seniors on fixed incomes, small

businesses, and the poor. This administration apparently thinks the best way to help these folks is to raise their energy taxes and then lend Brazil billions of dollars to drill for oil, while our workers and our factories stand idle.

What we need is a dose of common sense when it comes to our domestic energy policy. We have to use our own oil, natural gas, and coal to create jobs and stop the pain at the pump.

#### GAS PRICES

(Mr. STUTZMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STUTZMAN. Mr. Speaker, I rise today with concern over oil prices and the effect these high prices have on the American consumer.

In my district in northeast Indiana, fuel prices are around \$4.10 a gallon. Just this morning, WANE TV reported gas prices in northeast Indiana will be at \$4.29 by the end of today. At \$4.29 a gallon, many of my constituents will not get out of the gas station for under \$80.

The Third Congressional District of Indiana is rural and geographically expansive, causing many constituents to fill up their gas tanks two to three times a week simply from commuting to and from work. For many, this cost makes their total monthly expenditure for gas at or above their rent or mortgage payment.

When President Obama took office, we saw gas prices at a national average of \$1.84. Now we are told gas prices could be as high as \$5 by Memorial Day. We cannot continue the status quo and expect Hoosiers to pay at the pump.

That is why, Mr. Speaker, I support H.R. 1229, the Putting the Gulf of Mexico Back to Work Act, and H.R. 1231, Reversing the President's Offshore Moratorium Act, sponsored by Mr. HASTINGS of Washington. These bills, along with H.R. 1230, the Restarting American Offshore Leasing Now Act, that the House passed last week, will help us move away from our dependence on foreign oil by opening restrictions placed on the Outer Continental Shelf, allowing us to tap into our domestic resources. Doing this will provide jobs to more Americans and lower our gas prices.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 2 o'clock and 14 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 1600

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro
